

Getting your favorite sermon CD's/DVD's into book form has never been easier. Here's how it works...

Easy as 1.2.3...

1. Transcription

If your audio sermons are on your website, CD, or DVD, you can send them to us, and we'll be happy to convert them to digital format and transcribe them into manuscript format. We have found that the anointing is flowing to a greater degree in a service than it is when we may purposely sit down to pen a book. We prefer to transcribe sermon cd's because we find great treasures and nuggets of revelation that tends to be pulled out of ministers when they are in front of people that are pulling on their gift.

2. Manuscript

Once the transcripts are completed, we'll adjust paragraph breaks where needed, add sub-headings, etc. to turn the transcripts into a basic manuscript.

You'll change specific names to fictitious names when necessary to protect the identity of friends and relatives. You'll also add a little here and delete a little there and make other changes as needed to better communicate your original sermon points in written form. Next to writing and preaching the sermons in the first place, this is your most important step in the process. The more you do in this step, the less the editors have to do, and the more money you save. For many pastors, this is also the most intimidating part of the process because they think, "*I'm a preacher...not a writer. I'm not sure I can do this.*" If that describes you, don't worry! Once you're done revising the transcripts into a rough draft manuscript, our experienced editors will help you. We will help you turn all your hard work into a polished manuscript.

3. Publish

We take care of the rest of the process of turning your sermons into a book. We will help you come up with a title. We will also assist you with your book's cover design, copyright, ISBN and bar code, and help you register your book with Books in Print and the Library of Congress. Our Expanded Distribution Program can even help you sell your book on Amazon, Google Book Preview, and other big box retailers.

Packages Starting as Low as \$999

Aion Multimedia is a Boutique publishing, and Graphics design firm Creating, Producing, Publishing, Marketing and Distributing Christian Materials, Relating to the Needs, Purposes, Instruction, Development and Functions of the Body of Christ universal.

The Greek Word “Aion” means an age or span of time. We believe that the Word is everlasting. The recorded Word has the ability to carry on legacy beyond just those who are present to hear. We have an unrelenting commitment to take the Word, Insights and Revelations that have yet to be recorded and take them from The Pulpit to the World.

Years ago our Founder was standing in a small closet looking at boxes and boxes of his pastor’s tape recordings of seven years of sermons (several hundred). In his own quest and pursuit for personal edification and development, he began to catalog, convert to CD and assemble various sets of teachings for his own Christian growth and thusly began that church’s very profitable Media Ministry. Then recruiting transcribers and editors we began to assemble and publish books and audio materials that ultimately were shipped and sent all over the world. Realizing that many organizations; whether church, para-church, non-profit, ministry, or business; need economical solutions to getting their message to the world, Aion was formed. Aion is committed to helping small organization access the marketing, sales, design talent, and resources to communicate their message to the world.

Why Aion?

While we are a for profit organization, we function to meet the needs of the body of Christ. Our first and foremost goal is to bring the Word of God and understanding to the world in which we live. Thusly having enterprise with kingdom purpose! We understand the unique challenges that ministries face and are willing to help you overcome them and see your publishing needs come to fruition in an expedient and economical way.
